[\(00:28\):](#)

Hello, how are you?

[\(00:30\):](#)

Everything okay? Now, have you got your ferret? Excellent. Wonderful. In that case, come on in. I'll grab the ferret, bring yourself in if you can shut the door after you because otherwise ferrets will get out.

[\(00:52\):](#)

Well, welcome to Blue Ferret Boarding HQ. This is us, it's just a bog standard house but with loads of ferrets and loads of love for ferrets. So these are all of our kids here. We currently have one boarding and we have the setup for more, which I'll show you another time quite how we set it up. And when we get boarders in, we can be completely full. And we've got hutches outside. Come see the hutches outside. Everything's locked now. Can you get through here?

[\(01:32\):](#)

Okay, this is Ferret Towers, one of our outdoor hutches. This here is one cage and this here is another cage, so it'll take six ferrets all told in two groups, but we can also connect them, so that it's six ferrets in one group if needed. Come on through. I've got a whingy cat.

[\(02:02\):](#)

Hi. She wants me to stop the fan because she's getting too blown away. What's the matter whingy bag bag? This is Yula and this is our outdoor area, so we need to put some more flooring on this. But this is Bluebell Cottage and this will take three ferrets, but occasionally I will put a group of four in there if I can. Hello, beautiful!

[\(02:40\):](#)

My old lady. This is a new, this is Ursula Lodge but we haven't finished it yet so we need to do some more work on that before it's in commission, is that the word? Some crates, some bread crates and some pipes going on here for them to play in and play around. And the slide obviously just for them to play around. So that's all for them just to play to explore. They tend to climb up these bits of trellis and get onto the top of this, which is Bluebell Cottage. And then they'll sit and watch the world go by on here for a bit.

[\(03:19\):](#)

This is a lovely ball pit. So ferrets love the tyres. So this is our tyre ball pit, so they love just playing around there. And I have a pressure washer, which I try and pressure wash this place out quite often and I'll wash the balls out as well.

[\(03:38\):](#)

So this really is more our area of it but they still have the run. We don't allow them into the garden area, which is a mess. So don't look at that too closely. Don't look! But this gate stays locked, so the ferrets will literally run in this area here and they'll each get about an hour. And on the whole, it's pretty ferret proof, they can't get out. But all boarders will be supervised when they run so that we make sure that they don't

climb because there are some who will literally just climb straight up this and out. So we have to be careful for that.

[\(04:22\)](#):

So another bit of pipe and our lovely cats. This is Yula and this is Biscuit. What's the matter? And I don't know where Rosie is right now. We have three cats and I find that actually they're fine with the ferrets.

[\(04:41\)](#):

They're so used to the ferrets now. But as far as I'm concerned, downstairs is where the ferrets are allowed to be and the ferrets aren't allowed upstairs and vice versa. So if the cats are unhappy with the ferrets, they get booted upstairs out of the way. But on the whole, they just keep out of their way. And again, because it's supervised, you don't need to worry. I trust my ferrets with my cats because they're used to each other. But your ferrets, if they're outside, they may come in contact with our cats or other cats. But again, it's generally fine and they're supervised. So if there is any issue, I just tell the cats to boot it.

[\(05:20\)](#):

So this is where they play on a nice day. Obviously if it's throwing it down, we don't let them out and they'll play in the kitchen or in the hall.

[\(05:30\)](#):

Welcome to Blue Ferret Boarding!
